# REPORT.

---

*To the Honorable the Senate and House of Representatives  
of the State of Louisiana:*

The Annual Statement of the condition of the Charity Hospital is most respectfully submitted.

By reference to the documents relating to the Financial Department of the Institution, it will be seen that the balance on January 1, 1864, was.....

Received since in cash .....	30,373 70	<del>30,879 38</del>
Received from U. S. Government in rations and supplies.....	47,277 79	
"        "        drugs and medicines.....	2,867 07	
"        "        wood .....	2,240 00	
"        "        coal .....	552 50	
"        "        ice .....	2,096 00	<del>55,033 36</del>
Actual disbursements for the year.....	<u>\$85,912 74</u>	
Cash—Disbursed during the year.....	\$28,457 71	
Leaving balance on hand.....	2,421 67	
	<u>\$30,879 38</u>	

The documents hereto annexed will show separately the several items of the income and expenditures.

The Clerk's Report, also hereto annexed for reference, will furnish you with all the information concerning the number of admissions, deaths and discharges during the year.

The number of patients in the Hospital on the 1st of January, 1864, were 373. Admitted during the present year, 4861. Of that number died, 812; and also of that number discharged, 3999; as is more fully exhibited in said Clerk's Report. Remaining in the Hospital January 1, 1865, 423 patients.

*To the Honorable the Senate and House of Representatives  
of the State of Louisiana.*

The annexed memoranda and accounts exhibit the condition of the Charity Hospital for the year ending 31st December, 1864.

The Board again calls the earnest attention of the Legislature to the present position of the Hospital. The building, for want of repairs, is fast falling into decay. The resources of the Institution have been so reduced in consequence of the rebellion as to render it absolutely necessary that the State should appropriate a considerable sum of money, with a view to sustain the Institution.

A majority of the patients now in the Hospital are the helpless wives and children of soldiers of the United States who are now absent, and suffering refugees who have come within the lines.

To maintain this Institution during the coming year, to enable it to continue to dispense its incalculable blessings, to preserve its valuable buildings from decay, and to render them fit for the purposes for which they were originally designed, will require an appropriation from the State of at least \$100,000.

This demand, it is confidently hoped, will be promptly met by the Legislature. To permit this the noblest charity in our midst to perish for want of the sustaining arm of the Legislature, would be a lasting reproach to the State and our people.

WILLIAM H. HUNT,  
Vice President of the Board of Administrators.
